NIGHTTIME BRIDGE DECK REPAIRS AND LANE RESTRICTION
NH ROUTE 101 WESTBOUND OVER U.S. 3 IN BEDFORD

The New Hampshire Department of Transportation announces nighttime deck patching requiring a lane restriction will take place on NH Route 101 westbound over U.S. Route 3 in Bedford. The work is scheduled to take place overnight on Thursday, October 4 until early Friday morning.

A New Hampshire Department of Transportation crew will restrict westbound daytime traffic on NH 101 in Bedford to a 12-foot minimum width after 10:00 p.m. on October 4.

Plans are to use message boards, warning signs, cones and uniformed officers to guide vehicles through the work zone.

Motorists traveling on NH Route 101 in the Bedford area after 10:00 p.m. on October 4 are asked to use caution when driving through the work zone, as workers and equipment will be present. Minor delays may be encountered.
